

Addendum No. 1 dated May 9, 2016
To The
Request for Proposals (“RFP”) Under the
SREC-Based Financing (“SREC-II”) Program

For New Eligible Residential/Small-Commercial Solar Photovoltaic Projects (up to 50 kW);
Commercial Solar Photovoltaic Projects (Over 50 kW); and
Grid-Supply / Utility-Scale Photovoltaic Projects (Up to Target MW)

Located in the following Service Territories:
Atlantic City Electric Company
Jersey Central Power & Light Company
Rockland Electric Company

Please note the following revisions to the RFP bid rules:

1. On Page 4, in Section 2.2.5 of the RFP bid rules, the target quantities is clarified to be set in kW DC.
2. On Page 4, in Table 2-1 of the RFP bid rules, the target quantity noted for Segment 2 under JCP&L has been revised and corrected from 11,841 kW to 10,365 kW.

Please note the following revisions to the Attachment B – Consolidated Bid Application:

1. On Page 7, the lined noted “Size of the Project in kW” has been clarified to “Size of the Project in kW DC.”
2. Also on Page 7, an additional line has been added to request “Size of the Project in kW AC.”

The above noted revisions have been made to the RFP Bid Rules and Attachment B – Consolidated Bid Application document posted to the RFP Web Site.
